WS3250 Diesel Stacker Specifications

Engine	CAT C2.2 35.5 Kw (49hp) Tier III Diesel engine
Maximum Capacity	400 tph
Stockpile Pile Height	7.88 m
Transport Length	11.80 m
Transport Width	2.50 m
Transport Height	3.10 m
Weight	4,100 kg
Hose Reels	20 meter
Fuel	Diesel 125 Litres

The 32" wide 50' conveyor is able to handle large amounts of product, stockpiling it using McCloskey's field-proven axle setback design. By setting the axle back and adding a counterweight, the stacker can create large stockpiles without burying its own wheels. Radial Axles add to stockpiling abilities by allowing the WS3250 to make sweeping stockpiles in a 180 degree radius.

ST2400 Electric Stacker Specifications

Length	24 m
Belt Width	1 m
Volts	415VAC / 240VDC
Axle	3.5m Radial Axle
Wheels	11R 22.5
